7. Nobody's Here

Hello, it's good to see you here
Come in, can I offer you a beer?
And they say this what it's like forever
...Roll this up, it's deadly...

To feel, feel like there's nobody here
...Feel like there's no more fear
I wanna feel like this for a year...
...Feel like there's nobody here...

To live, and lock yourself away
Relax, it dosen't matter anyway
Cause it's all a lie it's true
I think, i guess, i know, i think, i know...

Fuck off...

Why can't I remember?

I feel, feel like there's nobody here
...Feel like there's no more fear
I wanna feel like this for a year...
...Feel like there's nobody here..

Heroes, they take my breath away
Zero the dials
See how the breakdown breaks ground
And zeros the miles

I feel, feel like there's nobody here
...Feel like there's no more fear
Feel like this for a year...
...Feel like there's nobody here..

I feel, feel like there's nobody here...
