What have we done everybody?

I know why and where the water flows
I know I don't remember anything at all
I sit in the mountain, sit in the mountain, alone
Sit in the mountain, I know, I know
'Cause I've been there before

Stay a while, and let the feelings go...
Stay... stay... don't remember anything today
Sit in the mountain, sit in the mountain alone
Sit in the mountain, I know, I know
'Cause I've been there before

And they say you're out of your mind
And everything is just fine
You say you don't want to use me
So lose me, lose me

I sit in the mountain, sit in the mountain, alone
Sit in the mountain, I know, I know
'Cause we've been there before

Stay... stay... stay...
