Night. Folows me when you're gone.  
And now... how am I to carry on?  
But into the night...  
... into the darkness  
I must be strong, carry on.

Night, follows me when you leave  
And tonight, my mind is under siege  
So into the night...  
... into the darkness.  
Unto the morn, carryig on...

Hate as your co-conspirer  
He'll set your soul on fire  
Hate, make the flame get higher  
Kneel for me know...  
VAMPIRA!

GO!  
HEY, HEY!

Niht, follows me when you leave  
With the sights, and the sounds you'd not believe.  
So into the night.  
Into the darkness  
Untili the morn  
Carrying on and on and on...

Hate as your co-conspirer  
He'll set your soul on fire  
Hate, make the flame get higher  
Kneel with me know  
VAMPIRA!
