It's D.E.V.L.I.N. your girlfriend thinks I'm handsome  
I brainwash your mind like Derren brown or Charlie  
manson  
You won't suggest I'm random when I take the scene  
for ransom  
I'm packing out stadiums with the fans singing my  
anthems  
Dirty like Lesley Grantham  
This is my manipulation so forget the speculation on all  
the trials and tribulations  
That I've faced along the way because now I've  
changed my situation  
My names lodged up in your brain just like a blade in  
an operation  
But now they're all discussing me in their everyday  
conversation  
Assisting me to spread the word so brace for an  
invasion  
Neurological science I'll give you braincells re-wired  
My names Devlin I'm just tryna gain entry to your mind  
(Chorus)  
I fought up my corner, didn't I warn ya, that one day  
you'd know my nameeee!  
A few years older now I'm singing... ayo ayo remember  
me  
Do you do you remember meeeeeee!  
But now your being brainwashed... they never knew  
what my name was... but now you're being brainwashed  
You better recognise my name just like your family  
members  
My flows so tremendous shining like a thousand  
embers  
We came to take over your town til every man  
surrenders  
And kidnap your vocabulary until my name is all that  
man remembers  
You never knew me when my life was dark and gloomy  
But now my life is like a movie starring role yours truly  
So familiarize yourself with the cast upon the set  
If your unaware of how I'm moving then you ain't heard  
bars yet  
Naah!

I'm Mr fire mic just like David blaine & Paul Mccenna  
Hypnotism different frame of mind whenever I pick the  
pen up  
So in the future if you remember any name again  
Make a mental note of 6 letters D.E.V.L.I.N.!  
(Chorus)  
I fought up my corner, didn't I warn ya, that one day  
you'd know my nameeee!  
A few years older now I'm singing... ayo ayo remember  
me  
Do you do you remember meeeeeee!  
But now your being brainwashed... they never knew  
what my name was... but now you're being brainwashed  
D.E.V.LIN make sure you remember me  
D.E.V.LIN brainwashing your memory  
Standing my...  
Make sure you remember me, make sure you  
remember me  
O.T. Bud sweat and beers.  
D.E.V.LIN standing my...  
Now I'm here, now I'm here!  
Make sure you remember me, make sure you  
remember me  
(Chorus)  
I fought up my corner, didn't I warn ya, that one day  
you'd know my nameeee!  
A few years older now I'm singing... ayo ayo remember  
me  
Do you do you remember meeeeeee!
