(Verse)

Hide far from my life and nearly everything just ain't  
the same

These lyrics I'm bringing, I'm giving you insight into the  
world that I live in.

Where you don't stand up, man up, you will be dead in  
the city, sinning

I switch my life from an open position

I wanted more than work and still being poor

I don't need criminologist proving that young men  
attacked by animals lately

Hand up what you made this for, nothing inside but  
hatred and war,

Who I ever learn from releasement, was that a kick for  
the door

But I retain composure, now I can't stop till the sun  
burns out

Life as you know it is over, I used to run around town

Thinking of scams and puns.

Now you see my face on a poster, you must have fool  
down was a no hover

Or a joker.

(Chorus)

I call at your vision be the only part that's made for me

Cause when the sun goes down I gotta be

Content when I lay my head, I lay my head.

(Verse)

Until the sun goes down, want to be broken time.,

I run around, I let my heart on my palm and I show you  
my hand

Cause no matter what happen you won't ever see me a  
broken man

My vaco evokes emotions that we make dope when we  
share round

I can feel the changing power, now life don't seem so  
sour,

I used to sign on them writings cause I told myself

That I won't get the work till I work for means one more  
bloody hour

So, say hello to my ex, still got a whole for a fight in the  
shower,

Times are crazy and my world's dreams as a baby  
Wanted them to think that I want to be the best MC in  
the whole UK scene  
Till the sun goes down imma run this town on Rihanna  
and Jay-Z  
I'm a warrior now, no stopping me now, I'm telling you,  
take this.  
(Chorus)  
I call at your vision be the only part that's made for me  
Cause when the sun goes down I gotta be  
Content when I lay my head, I lay my head.  
(Bridge)  
Until the sun along rises,  
The fall of mankind, the change of climates,  
You find me grinding, this life that I'm in  
It's full of surprises, but you still find the fire.  
Until the sun along rises,  
The fall of mankind, the change of climates,  
You find me grinding, this life that I'm in  
It's full of surprises, but you still find the fire.  
(Chorus)  
I call at your vision be the only part that's made for me  
Cause when the sun goes down I gotta be  
Content when I lay my head, I lay my head.
