

Devlins "Brainwashed"

Visit "[Brainwashed](#)" on MotoLyrics.com

It's D-E-V-L-I-N, your girlfriend thinks I'm handsome
I'll brainwash your mind like Derren Brown or Charlie
Manson
You won't suggest I'm random when I take the scene
for ransom
And I'm packing out stadiums with the fans singing my
anthems

Dirty like Lesley Grantham, this is my manipulation
So forget the speculation on all the trials and
tribulations
I've faced along the way because now I've changed my
situation
My name's lodged up in your brain just like a blade in
an operation

And now they're all discussing me in their everyday
conversation
Assisting me to spread the word so brace for an
invasion
Neurological science, I'll leave you brain cells rewired
My names Devlin and I'm just tryin' to gain entry to your
mind

I fought up my corner, didn't I warn ya
That one day you'd know my name?
Few years older, now I'm singing ayo, ayo remember
me
Do you, do you remember me?

They never knew what my name was
But now you're being brainwashed
They never knew what my name was
But now you're being brainwashed

You better recognize my name just like your family
members
My flow's so tremendous, shining like a thousand
embers
We came to take over your town 'til every man
surrenders
And kidnap your vocabulary until my name is all that

man remembers

You never knew me when my life was dark and gloomy
But now my life is like a movie, starring role, yours truly
So familiarize yourself with the cast upon the set
If your unaware of how I'm moving then you ain't heard
bars yet, nah

I'm Mr. Fire Mind just like David Blaine and Paul
Mckenna
Hypnotism, different frame of mind whenever I pick the
pen up
So in the future if you remember any name again
Make a mental note of six letters, D-E-V-L-I-N

I fought up my corner, didn't I warn ya
That one day you'd know my name?
Few years older, now I'm singing ayo, ayo remember
me
Do you, do you remember me?

They never knew what my name was
But now you're being brainwashed
They never knew what my name was
But now you're being brainwashed

D-E-V-L-I-N, make sure you remember me
D-E-V-L-I-N, brainwashing your memory
D-E-V-L-I-N, standing where I'm meant to be
Make sure you remember me, make sure you
remember me

D-E-V-L-I-N, make sure you remember me
(O-T, Bud, Sweat and Beers)
D-E-V-L-I-N, brainwashing your memory
(Now I'm here, now I'm here)
D-E-V-L-I-N, standing where I'm meant to be
Make sure you remember me, make sure you
remember me

I fought up my corner, didn't I warn ya
That one day you'd know my name?
Few years older, now I'm singing ayo, ayo remember
me
Do you, do you remember me?
