Listen comrade I don't care
How long you want to grow your hair
It doesn't matter to me
Hey lady have you heard the news?
You can burn your wig and burn your shoes
It doesn't matter to me
But there's something bigger than my vcr
Something important and it's waiting for you
Oh yeah
Knock it off pal I heard your story before
Tell me something new that's what I'm waiting for
It doesn't matter to me
'cause there's a train comin' into the station
But it's headin' for a new destination
And I tell you my friend you better count me in
Listen comrade I don't care
If you ever change your underwear
It doesn't matter to me
