"The Satisfied Mind"

Visit "[The Satisfied Mind](#)" on MotoLyrics.com

With a mind that's satisfied
With a mind that's satisfied
That big ice cream cone in the sky
Floats right on by
The satisfied mind never needs more
It never forgets whatever it's for
Beyond control of hot and cold
With a mind that's satisfied
Each one goes together alone
With a mind that's satisfied
In the middle of a heat wave
An ice cold drink is a major find
In the long dead end of winter
Frozen lovers dream of fire
With a mind that's satisfied
With a mind that's satisfied
Lucky ones learn that love is blind
They don't deny
The satisfied mind never needs more
Never regrets and never keeps score
In the middle of a heat wave
An ice cold drink is a major find
Simple facts you can depend on
Bits and pieces of desire
With a mind that's satisfied
That big ice cream cone floats on by
With a mind that's satisfied
Lucky ones learn that love is blind
With a mind that's satisfied
The satisfied mind is satisfied
