Since you came around
Wigglin' under my skin
I've been lost in the lost 'n found
Feeling like a helpless pin
U got me bug bug bug bug bugged
Girl I don't know what to do
U got me bug bug bug bug bugged
You fluttered on down
As graceful as can be
Then you stuck in the needle
And sucked my blood
It was the loveage that came over me
U got me bug bug bug bug bugged
I don't know what to do
U got me bug bug bug bug bugged
I'm always bugged over you
Now I'm hopelessly entangled
In the web of love you dangled
Helpless like a worm watch me twist and squirm
Your love has left me strangled
U got me bug bug bug bug bugged
Girl, I don't know what to do
U got me bug bug bug bug bugged
Girl, I'm all bugged out over you
You got me bug bug bug bug
Now I'm hopelessly entangled
In the web of love you dangled
Should have trusted sick fear
Now you stepped out on my tail
Your love has left me strangled
You got me bug bug bug bug
