They say the fittest shall survive  
Yet the unfit may live  
Let 'em wear gaudy colors  
Or avoid display  
Hey it don't matter  
It's all the same

So I do this and I do that  
So I do this and I do that  
So I do this and I do that

It's never straight up and down  
It's never straight up and down  
It's never straight up and down  
It's never straight up and down

Oh you got a nickel  
I got a dime  
I'd like to get to know you  
But I haven't got the time  
You gotta walk like a mannequin  
Roll like a tire  
Act on reaction  
Dodge the big spud fryer  
So wiggle on the bottom  
Wiggle on the top  
Wiggle up the middle  
And laugh a lot  
Cause I've been living in a wiggly world  
Wiggly world, a wiggly world  
I got to tell you  
I've been living in a wiggly world now  
Wiggly world, a wiggly world  
Well I've been living in a wiggly world  
Wiggly world, a wiggly wor/d  
I got to tell you  
I've been living in a wiggly world  
Wiggly world, a wiggly world

Wiggle, wiggle, wiggle  
Wiggle, wiggle, wiggle

Wiggle, wiggle, wiggle  
Yeah I've been living in a wiggly world  
Wiggly world  
Oh I've been living in a wiggly world  
Wiggly world  
Well I've been living in a wiggly world  
Wiggly world  
Well I've been living in a wiggly world  
Wiggly world  
Well I've been living in a wiggly world  
Wiggly world  
Well I've been living  
In a wiggly world now  
Wiggly world  
Well I've been living in a wiggly world  
Wiggly world  
Oh, I've been living in a wiggly  
Wiggly world
