A song of truth and beauty for you

In the biggest thing of things
We haven't been around here more than a moment
And yet too many, it seems, believe
We are creating a brand new world around us
We are creating a brand new world without us

Maybe it really is ok
Although, we're digging our own graves
At this moment
If we should all just disappear
The skies and waters will clear in a world without us

And there's no place like home
There's no place like home
There's no place like home
To return to

We push against the rest of life
As if we can survive without the world around us
Can't have a rainbow without the rain
Can't have a painting without the pain
Can't have a lover walk out without the love
Leaving with them

There's no place like home
No place like home
To return to

And there's no place like home
There's no place like home
There's no place like home
To return to

And there's no place like home
there's no place like home
there's no place like home
To return to

And there's no place like home
there's no place like home

there's no place like home
To return to
