Got a nervous kind of feeling  
Got a painful yellow headache  
Every picture in every magazine's turned real  
Every face looks out and screams at me too real

Cold sweat on my collar  
Dripping to my boots  
The waves of nauseous pain  
Sets off the pressure pad alarms

Gotta get outta here  
Gotta get outta here  
Gotta get outta here  
Gotta get outta here

Gotta painful swelling brain  
Banging in my head  
Gotta painful swelling brain  
And I called off sick

Gotta swelling itching pain  
Got me pulling out my hair  
Gotta swelling itching pain  
Clutching at my brain

Gotta painful swelling brain  
In the back of my head  
Gotta painful swelling brain  
And I called off sick

Gotta swelling itching pain  
Got me pulling out my hair  
Gotta swelling itching pain  
Clutching at my brain

Gotta painful swelling brain  
Got me laying on the floor  
Gotta painful swelling brain  
Think I left my senses

Gotta swelling itching pain  
Seems like endless torture

Gotta swelling itching pain  
Banging in my head

Gotta painful swelling brain  
In the back of my head  
Gotta painful swelling brain  
And I called off sick

Gotta painful swelling brain  
Got me pulling out my hair  
Gotta painful swelling brain  
Clutching at my brain

Gotta painful swelling brain, painful swelling brain  
Driving me up the wall  
Gotta painful swelling brain, painful swelling brain  
Dripping out my eyes ears nose and mouth

Gotta painful swelling brain, painful swelling brain  
Imploding my thoughts  
Gotta painful swelling brain, painful swelling brain  
Blasting holes in the front lawn now

Gotta painful swelling brain, painful swelling brain  
Clutching at my brain  
Gotta painful swelling brain, painful swelling brain  
Got me laying on the floor

Gotta painful swelling brain, painful swelling brain  
Painful swelling brain, looking out at my start  
Gotta painful swelling brain, painful swelling brain  
Painful swelling brain, banging on my thought

Gotta painful swelling brain painful, swelling brain  
Painful, swelling brain, looking out at my  
eyes[Incomprehensible]  
Gotta painful swelling brain, painful swelling brain  
Painful swelling brain, tearing me apart
