Soft things

You want soft things

You need soft things

You'll get soft things

You register a motion, you get a helpful hint

There's a certain way it shivers when she shakes

Her mind seemed so chaotic

Her posture was erotic and her voice was exotic

I acted so neurotic, I thought it idiotic

Her dance was so technotic, she became hypnotic

And now I'm calling out for soft things

Something soft when times get hard

And now I'm calling out for soft things

When something calls you you'll know what to do

Soft things

You want soft things

You need soft things

You'll get soft things

You find a longer wavelength, you hear a deeper note

It's a buried treasure that she doesn't hide

Her mind seemed so chaotic

Her posture was erotic and her voice was exotic

I acted so neurotic, I thought it idiotic

Her dance was so technotic, she became hypnotic

And now I'm calling out for soft things

Something soft when times get hard

And now I'm calling out for soft things

When something calls you you'll know what to do

Soft things

You want soft things

You need soft things

You'll get soft things

Soft things

You want soft things
You need soft things
You'll get soft things
