I'm just standing here
Waiting in the sunlight
For you to appear,
Cause when you do i'm alright,
i'm alright.

I dont care how long it takes
For you to come.
You know i'll wait forever,
It Just get better

I feel lucky I found you,
You make me feel alive.
I feel lucky around you,
I think I know why.
My stars upline,
because you are mine,
Because you are mine.

Rain clouds disappear
every time you're with me.
This could be the year
We go down in history, in history.

The grass is green,
They're on my side.
For the first time
I feel like i need nothing,
I got myself in.

I feel lucky, I found you,
You make me feel alive.
I feel lucky around you,
I think I know why.
My stars upline,
because you are mine,

Because you are mine.

No rabbits foot,
No lucky trumps,
Good substitute,
You're in my arms,
Step on cracks,
I'll take the world,
keep spanding.
Under ladders,
Broken mirrors,
Black cats on street get near.
No matter what they do,
When i'm with you i'm winning.

I feel lucky, I found you. I feel lucky around you

I feel lucky, I found you,
You make me feel alive,
And I think I know why.
My stars upline,
because you are mine,
Because you are mine.

I feel lucky. I feel lucky
