You're beautiful, you don't know it.
You got those eyes, that make me weak.
I know your heart, come on and show me.
Dont need no words, for us to speak.
No one really gets me, the way you do.
I wanna be the only one, to be with you

So, if you ever wonder,
I'll never walk away from you, away from you, now.
And when you need a shelter, i'll never turn away from you, away from you.

Always dancing, and theres no music.
You got that smile, and it aint no joke.
You got that way, you know how to use it
Heart beating fast when you take slow
No one really gets me, the way you do.
I wanna be the only one, to be with you.

So, if you ever wonder,
I'll never walk away from you, away from you, now.
And when you need a shelter, I'll never turn away from you, away from you.

Stay with me, when the distance stand between us
Stay with me, I'll catch you when you fall
I'll never let you go, i will never let you go, now.

You're beautiful, you don't know it
If you ever wonder,
I'll never walk away from you, away from you, now.
And when you need a shelter, I'll never turn away from you, away from you.

And if you ever wonder,
I'll never walk away from you, away from you, now.
And when you need a shelter, I'll never turn away from you, away from you.
Always dancing, and there's no music.
