Drive up the 1 0 1
There a place I like to go to
When I'm felling, kind of tried of the city
Get out in the sun
Cause where living for the weekend
And we got no need to worry

Night gonna come then its time to let yourself go
Pace yourself to night
Cause there lots of ways to make it right

I don't wanna go right now
While the music still loud
All the girls are dead and so crazy
I wish it I could live this way
Hear me when when I say
Could we stay just a little bit longer
Just one more day

Up and down the hall
Full of break ups and relationships
No one here likes to commit
Fill from wall to wall
While the band is getting going
I'm trying to get to know ya

Night has come
Now its time to let ourself go
It all things al right
So lets try and make it through the night

I don't wanna go right now
While the music still loud
All the girls are dead and so crazy
I wish it I could live this way
Hear me when when I say
Could we stay just a little bit longer
Just one more day

Just one more day
You see us be but ladies I'll stay
The bomb like C4 pretty by the sea shore

Up all night like what I need sleep for
Just chill no beef like herbivore
Just peace babe like we never heard war
Oh she so sweet
Mummy needs to stop
Wait a minute make a drop
Oh okay mummy I'm just playing
You can keep it going
We can keep it flowing
All night street lights on
Now it's the morning
Party still going
Every track that drops there like
That's my song again
Hasta la vista to a late halaveste
It's the place I'm staying
Players where I'm playing
Babe I'm just saying

I don't wanna go right now
While the music still loud
All the girls are dead and so crazy
I wish it I could live this way
Hear me when when I say
Could we stay just a little bit longer

Just one more day
