V1:

Gettin up while it's still dark, trying to get me a head start.

Bass fishin on a pond in Lyons, a stringer full most of the time

Back home just in time to eat. Cream and syrup on a biscuit sure is sweet

Put on my cap and right back out the door when I was a country boy

Pre chorus:

I watched my daddy work it every day. Nothing ever tough enough to stand in his way

Chorus:

Now I'm a countryman everyday I take a stand  
In my ripped blue jeans on my atv my family's counting on me

I'm a countryman, man of steel, I been roughed up and I'm tough as nails

Bullet proof, I've been set free. You don't want to mess with me, I'm a countryman

Doin the best I can

V2:

I used to wanna ride the ole John Deere, wishin I could rope a steer.

Spent some time camouflaged in a tree stand, wishin I could own the land.

Wondered how all the work got done. I was trying to have some fun

Back when life was full of joy, when I was a country boy

Last pre chorus:

Now I'm the daddy whose workin every day, I can't let anything stand in my way
