We are only speaking from our conscience
He's gonna take us when he wants us
We only need a little piece
Somewheres in style
somewhere out of reach

If this is love I'm gonna lose there is no doubt
You're gonna chew me up and spit me out

A little faith a little money
You shouldn't laugh this isn't funny

We're gonna give back what we steal
Just say the word and I shall be healed

If I love you I'm gonna lose there is no doubt
You're gonna chew me up and spit me out
If I love you I'm gonna lose there is no doubt
Go ahead and chew me up and spit me out
