The very thought of you, leaving my life
Brought me down in tears (you brought me down in
tears)
I took for granted all the love that you gave to me
And now that's what I fear
Don't go away

Every heartbeat, every moment, everything I see is you
Please forgive me, I'm so sorry, don't say we're
through

Girl I need you to be by my side
Girl I need you to open up my eyes
Cause without you, where would I be
Yes I need you, come back to me

A kiss is not a kiss without your lips kissing mine
You bring me paradise (your reason to my life)
I can't live if you took your love away from me
Without you I would die, yeah yeah yeah yeah

Every second, every minute, everytime I close my eyes
I can feel you, so I want you, to stay mine

Girl I need you to be by my side (I need you by my side)
Girl I need you to open up my eyes (without you I would
die)
Cause without you, where would I be (where would I be)
Yes I need you, come back to me (come back to me)

(I can't live without you in life)

I'm so sorry, can't you see
Won't you stay right here with me, yeah yeah

Every second, every minute, everytime I close my eyes
I can feel you, so I want you, to always be mine

Girl I need you to be by my side (to be by my side)
Girl I need you to open up my eyes (won't you open up
my eyes)

Cause without you, where would I be (where would I be)
Yes I need you, come back to me

Girl I need you to be by my side (come back to me)
Girl I need you to open up my eyes (come back to me)
Cause without you, where would I be (come back to me)
Yes I need you, come back to me (come back to me)

Repeat until end: I need you, I want you, to be with me
and never leave

Girl I need you to be by my side
Girl I need you to open up my eyes
Cause without you, where would I be
Yes I need you, come back to me
