Over her body I stand with the demons  
Telling me to blanket her with semen  
Gurgling blood from her ravaged insides  
The blade made short work of this cunt in no time

She twitches with an ounce of life still  
I stomp her skull to further the kill  
Her brain destroyed spews viscous fluid  
I stab her face for my amusement

Her life ceased to be  
My desire is not complete  
I grab this slob by the hair  
Then saw off her pretty head

With the dripping head I force her death to pleasure  
me  
Once inside I feel the warmth of fresh blood to revelry  
Her eyes gaze into mine as I consume this wretched  
fantasy  
The climax comes I shake so sweet, a pleasure like I've  
never seen

This bitch's head will be a part of me  
Hack the torso til it's never seen  
Carve her cunt, remove the insides  
Urinate on her butchered tits
