Bid the great disorder farewell  
With no hope for better days  
Leave behind the custody  
Break free from the shackles of life  
Regain mental autonomy  
Liberated and so relieved  
Alter the future  
Man forges his own destiny

In dying mode

Comprehension pulled to pieces  
Confidence ripped to shreds  
Glimmer of survival  
Once alight, now rather bleak  
Longing for solitude  
Crystallize in the minds eye  
Unchained at last  
Self-fulfilling prophecy

Calamity Everyone will see  
Debauchery In dying mode...  
Surrender unconditionally  
Getting ready to be in dying mode...

In dying mode  
Salvation of the soul

Bid the great disorder farewell  
With no hope for better days  
Leave behind the custody  
Break free from the shackles of life  
Regain mental autonomy  
Liberated and so relieved  
Alter the future  
Man forges his own destiny

In death prepared to conceive  
Forever struggling to be free

Endure a painful exile

Endless dead certainty

In dying mode  
In dying mode  
Salvation of the soul

Comprehension pulled to pieces  
Confidence ripped to shreds  
Glimmer of survival  
Once alight, now rather bleak  
Longing for solitude  
Crystallize in the minds eye  
Unchained at last  
Self-fulfilling prophecy

In death prepared to conceive  
Forever struggling to be free  
Endure a painful exile  
Endless dead certainty

In dying mode
