[Music by Bache, Mueller, Werning ? Lyrics by Jensen]

I sense the arrival of deceit, no longer I abide by this  
game of chance,  
Reflecting eyes of an enemy, your decline? what a  
sight to behold!  
I?m blind with rage, I revel in contempt, betrayed and  
misled all along.  
Coming out in your true colours, no more will I contend  
with your deliberate lies.  
Endmost defection from my decay, I?ll leave the past,  
Leave frustration and disdain well-off behind.  
That?s why I despise you... I abhor every word that you  
speak.  
That?s why I despise you... I detest every breath that  
you take.

[Lead: Bache]

I?m blind with rage, I revel in contempt.  
I?m blind with rage, revel in contempt.  
I?ll secure your damnation, bury you deep beneath my  
heart.  
Battle-scarred perpetually, from your evanescent  
shadow I arise.  
I?m blind with rage, I revel in contempt, betrayed and  
misled all along.  
I sense the arrival of deceit, no longer I abide by this  
game of chance,  
Reflecting eyes of an enemy, your decline? what a  
sight to behold.  
That?s why I despise you? I abhor every word that you  
speak.  
That?s why I despise you? I detest every breath that  
you take.
