If I could see me through your eyes
Would I have a rude awakening
Maybe look at someone I could fall in love with
Tell me what do you see
Imagine that I'd be a book
Would you like to read my pages
Would you judge me by the content or the cover
Please be honest to me
Baby do you ever dream about me
Like I do, about you
Feel the loneliness when you're without me
Like I do, without you
If I could hear me through your ears
Would I know the deeper meaning
Of my words and would I understand the silence
If that be nothing to say
Baby do you ever dream about me
Like I do, about you
Feel the loneliness when you're without me
Like I do, without you
Oh how I'd love to be in your shoes, for ones
Then I know if you feel love the same way as I do
But you don't show your feelings at all
Baby do you ever dream about me
Like I do, about you
Feel the loneliness when you're without me
Like I do, without you
Oh Baby please I need to know...
Oehhh
