To Nomi

I try 'n find the words to tell

As many as I , I need to

To know me, it took a while but it gets to me

Listen to me, I hear you

To many nights I'd been wandering around

I couldn't let go, I just had to go down

Baby, this is the moment to say

That you are

Chorus:

Wonderful, You're wonderful

And I'll never let go

Cause I do love you so

You're wonderful, wonderful

Rewind or reverse

For the better of the worse

To Nomi

I'm here now

I can't imagine a day without you

As many as I, I used to

To Nomi

So close to me when I play downtown

I guess you're just meant to be part of me

That you are

Repeat chorus

Sometimes I won't be around

But you're always with me, always be with me

Sometimes i won't sleep at night

Cause I'll be singing, singing this for you

Repeat chorus
