

## Dezeray's Hammer "Leaving"

Visit "[Leaving](#)" on MotoLyrics.com

If I can't reach you, and I can't hate you  
And overcome you, but you're not above  
If I can't go through, what it takes to be you  
Well I'm not above  
If I respect you, and I decide to  
Live this with you, you say you're above  
These things we go through, if they overcome you  
Then you're not above  
I've been fighting to leave this behind me  
And rest assure  
I'm not the only one  
I've been fighting to leave this behind me  
And rest assure  
I'm not the only one  
But I'm not above you, no I'm not above  
If I can't reach you, and I can't be you  
Or overcome you, and you're not above

If I can't go through, what it takes to be you  
Well I'm not above  
I've been fighting to leave this behind me  
And rest assure  
I'm not the only one  
I've been fighting to leave this behind me  
And rest assure  
I'm not the only one  
But I'm not above you, no I'm not above  
If I respect you, and I decide to  
Live this with you, you say you're above  
These things we go through, if they overcome you  
Then you're not above  
I've been fighting to leave this behind me  
And rest assure  
I'm not the only one  
But I'm not above you, no I'm not above
