"Fading And Falling"

This pain will waste away
But not tonight I can't breathe you out
It's raining

All you give me is always outta chance
Then you bring me down
Every time you want that
Are you fine now?

Save me when I feel despair
Coz' I'm fading
I wanna be right by your side

I'm feeding and falling
Let me be a part of you now
When I'm lost in your eyes
Everything is going to change
Are you in love?
Won't you save me?

I can't wait by myself
I can't do it anymore
I can't wait by myself
When you feel that I'm fallin'
Will you save me?

Save me when I feel despair
I can't leave this without you right by my side
Coz' I'm fading can't you see my pain?
Will you save me?
Let me sleep right by your side
Feel it again, fading and falling
Feel it again, again, again
