Visit "[Through My Tears](#)" on MotoLyrics.com

Open your heart  
There's a feeling in the air  
In everything's that I do  
Let me see I can face the truth

Open your mind is now or never  
Startin' to change your life  
Looking for love we will rise  
To keep what I need

I know that you let me down  
But know I can see

I fall asleep into my dream  
I'll find a reason to believe  
I cannot see but through my tears  
I'll find a reason...

Everything's I'm feeling it's not what I need  
But I'm dreaming away  
All I want it's only your love that I feel  
In the air

I know that you let me down  
But now I can see

I'm starting to realize come into my reality  
(Take my hand tonight)

I fall asleep into my dream  
I'll find a reason to believe  
I cannot see but through my tears  
I'll find a reason...
