i'm breathing in the sun because winter's gone and
love is in the air
and all the rain has gone, look at all the happy faces
everywhere
i dont know how long i've been waiting
how long i've been living in chains
but now i am sure i can make it
tomorrow i wont feel no pain
chorus
yo quiero respirar la vida q me das
yo quiero compartir las ganas de vivir
yo quiero respirar nuestra felicidad
desde que estÃ¡is aquÃ¡ te quiero junto a mÃ¡
yo quiero respirar, quiero respirar

i'm breathing once again because after all the storm
i've found a way
i walk upon the clouds and i know my life would never
be the same
there's something so special around me
sensations, refreshments and joy
now kindness and beauty sorround me and thats how
i'm feeling today
chorus

Maybe im a fool
my heart is not torn*
when i'm in your arms
you can find tears still go, you know
the way that we feel, you know that is real
and no one could ever deny
no nothing can change a magical deal
and loving you time after time
chorus
