

Di-Rect "Angel Dust"

Visit "[Angel Dust](#)" on MotoLyrics.com

Many times as you slept I've told you this
You're the one, you're my world, hopes and dreams
I have cried sweet sweet tears
Liquid words ran down my cheeks

I thank you, my only star
Everyday you bring me
Your precious love
A light in the dark
Angel dust

Livin' in ecstasy with you next to me
And all I know without you I'd come undone
Liquid words would come out wrong
You're my drug, my rising sun

I thank you, my only star
Everyday you bring me
That precious love
An angel was sent
Angel dust

Let's get it on together alone
So much to life, reveal the unknown

I thank you, my shining star
Everyday you take me
Around the world
Everyday I need
My angel dust

The magic comes right of your hand
I'll follow your steps in the sand
