My pulse is racing
I see you coming through the door
I just can't hide it
I don't wanna hold it back anymore

I hear you laughter
I see your smile
But I feel so immune
And I know gotta let go
Even though I lied to you

So whatcha gonna say
Whatcha gonna do
How I'm gonna break the news to you
There's nothing left to say
Will you fade away
When I break us in two

If I could lie now
I would tell you I'm not sure
Then I could see you smile now
And you would think that I've been cured

Couldn't take it or fake it
And lead you on that way
So there's one choice left I fear
Now would you tell me my dear

So whatcha gonna say
Whatcha gonna do
How I'm gonna break the news to you
There's nothing left to say
Will you fade away
When I break us in two

Whatever happens now
I never meant to break a promise
A shame to be untrue
Well I leave it up to you
When I hold you tight
Time will fly we'll say goodbye

So watcha gonna say
Watcha gonna do
How I'm gonna break the news to you
There's nothing left to say
Will you fade away
When I break us in two
How you gonna feel
I know time will heal
I can never make this up to you
Should I go
When I break us in two
