"Equal To God"

Visit "[Equal To God](#)" on MotoLyrics.com

There's a passion within me, it is fighting to come out
A ghost in the room, howling in the night
We all deny what could be real

There's a wolf in the clouds, tearing down the sky
A saviour coming soon with message that we need
We all deny the truth of what we feel
We all forget the heart

You are equal to god, your my creator, my universe
You're the sunlight pushing through the clouds

You are equal to god, your own salvation, the lasting
hope
You're the sunlight pushing through the clouds
