"Inside my heart"

Visit "[Inside my heart](#)" on MotoLyrics.com

is it wise enough to say
that i'm better off without you
is it cool enough to fake
cause all that i've been breathing is about you

is it wise enough to flow
from my head until my toes
but somehow i don t really know
all that i've been doing is without you

is it you inside my head
is it you inside who says
that become someone else

and on and on my head keeps saying
this is not what i believe in
this is where it ends
and on and on my mind is made upthat
that is why it never stops
alone again, alone again

is it you inside my head
is it you inside who says
that i become someone else

i didn't know that you re buzzing right through inside
my head
i didn't know that you re coming right through inside
my head
i didn't know that you re buzzing right through no i ...
i didn't know that you re coming right through no I ...
i didn't know, i didn't know, i didn't know ...

i didn't know

is it you inside my head
is it you inside who says
is it you inside my head
