"Long Way Home"

Visit "[Long Way Home](#)" on MotoLyrics.com

Far beyond or far before
Way beyond the galaxy
in my mind I travel time
To places where I want to be
You say you want to be involved
But are you willing to believe
Everything will go its way
There's a million possibilities

It's a long way home
When the hope is gone
Reach into your soul
You can feel you're close

If you really want to feel
A powerful experience
You should try and understand
The beauty of its innocence
Woodstock was evolution
People didn't compromise
The extraordinary
Revolution of the heart

It's a long way home
When the hope is gone
Reach into your soul
You can feel you're close

Far beyond or far before
Way beyond the galaxy
in my mind I travel time
To places where I want to be

It's a long way home
When the hope is gone
Reach into your soul
You can feel you're close
