Maybe I could, empty your mind
And everything you knew, just leave it behind
This can make you stronger
A fire burns inside
And I will give you my best
And follow the sines

I'm natural high
Living inside of me
When you came along
You gave, you gave me something
I'm natural high
Living inside of me
When you came along
You gave, you gave me everything

You're no longer blind
Step into the light
So now you can find
A passion for life
This will make you stronger
A fire burns inside
And I will give you my best
And follow the sines

I'm natural high
Living inside of me
You came along

You gave, you gave me something
I'm natural high
Living inside of me
When you came along
You gave, you gave me everything

Give me one other reason
Why you hesitate
Share my vision
You should celebrate
We don't so connected to ourselves
Open up inside take a breath

You came along
You came
You gave me something
I'm natural high
Living inside of me
When you came along
You gave, you gave me something
I'm natural high
Living inside of me
When you came along
You gave me everything
You gave me everything
You gave me everything
You gave me everything
