It's summertime and the weather is hot  
I'm on the farm right on the spot  
All the chicken are looking at me  
The farm is where I want to be

Together, Hey!! On the farm

It's summertime and now I'm really hot  
Cause the chicken are fucking on the parking lot  
They're fucking on the fencen and on the roof of the  
barn  
On the haystack and under the car

Together, Hey!! On the farm

Rap:

It's great to see a rooster and a chicken having fun  
It's just a natural habit and they're not the only one  
Chicken will defeat all the pornstars in the whole wide  
world  
Cause they're rock&roll; and that's what I've heard

And if you're thinken "where's the qlue" ?  
Then pay some attantion, cause I'm telling you  
The rooster will scream like a firealarm  
If you grab his hen from the oldschoolfarm
