Rollercoaster

You can tell me what is true and all the things I gotta do

To be sure, to be safe for the danger on the way

I can tell you bout my life and

All the things that I have tried

Doing good, being straight, being careful every day

Go up and down, round and round on a rollercoaster

I close my eyes and I fly on my rollercoaster ride

Rolling on my rollercoaster

Got another point of view in all the things I wanna do

Im not stupid, Im not blind; just dont wanna waste my  
time

You can tell me what is wise cause life is just one big  
surprise

So I go with the flow, what will (whatll) happen I dont  
know

Go up and down, round and round on a rollercoaster

I close my eyes and I fly on my rollercoaster ride

Rolling on my rollercoaster

Getting sick or tired, going slower for a while

Soon Ill start again, rollin all along the bends

Happy on my rollercoaster

Go up and down, round and round on a rollercoaster

I close my eyes and I fly on my rollercoaster ride

Go up and down, round and round on a rollercoaster

I close my eyes and I fly on my rollercoaster ride

Happy on my rollercoaster
