SUPERMAN

hey you listen what I learn
I wanna tell you what I feel
I live in a world without fears
say you never get hurt

here I am here I stand again
here I am little superman

I wanna tell what I've seen
I'm glad I treat your life, you're safe of hurt
time saw changes you won't say
but now their summerfields appear)

here I am here I stand again
here I am little superman

But did you hear me
I won't die
We all say...
I get down
To stay in line
I'm like a super superman

here I am here I stand again
here I am little superman
