These days we live in, feel broken
Will we reach are destination
Our eyes are open, but they're bleeding
Must be more than this to believe in

Oh ooh this is who we are,
This is who we are oh ooh
This is who we are

No time for sorrow, no reason
Nothings real with al these dreamin
No more tomorrow, it's ilusion
Welcome to my revolution

Oh ooh this is who we are,
This is who we are oh ooh
This is who we are

Oh we live without, we frigale,
We come so far, and this is yeah
Sing this is who we are

These days we live in, feel broken
But we will reach are destination

Oh ooh this is who we are,
This is who we are oh ooh
This is who we are
