Please, just take a look at her soul
She belongs to lies
Enslaved by desire
To dance on your grave
For all this you can't blame
But yourself
You never know what is going on in her fantasies
You never care about reality
You always think you can resist
The pleasure that she is holding inside
Now you're blinded by those moments you shared
-perversions-
You will become a slave to higer level of pain

She's the one to take your breath away
You never know what is going on in her fantasies
You never care about reality
You always think you can resist
The pleasure that she is holding inside
Icon of FLesh - no more no less
