Shallow life seemed to be scarred  
Wasting away don't know who you are  
Aimlessly leading your visions are blurred  
Foolishly acting you seem so absurd!!

The path is walked walking on glass  
Barefoot through life blood will  
Flow fast  
No direction surrounded by lost  
Being ignorant at any fucking cost

Talking your shit none that is true  
Our gratification is going to haunt you  
All's said and done and you're still where you are  
Never to advance never to go far!!

The shallowed!!!!

Wrecking all you ever dreamed!!  
Relish the human decay!!  
Pathetic ways in a haze!!

[Lead: Brian]

Smothered waste!!  
Breathless phase!!  
Shallow ways!!  
Lowest of lives!!  
Self deceivers!!  
Non-believers!!

Herd mentality no original thought  
Jealous mind venomous plot  
Starting wars never to be fought  
Can't break the bond  
In your own web you're caught!!!!
