Duality

Co-existence of natural forces

Beyond that realization is the ultimate  
wisdom

Velocity

Science races at unhuman speed

Blasphemy to some yet relentless  
advancement!!

Mortality

Death's iron fisted grip

Victory over this fear results ambition to  
accomplish!

Insanity

Mad desire of millions

Empty souls reaching for hollow  
redemption!!

Oppose the weak

Defy the ignorant

Destroy the barriers

Allegiance to intelligence!!
