Sasrof

Unchaining the most furious hatred
From the blackest depths of my heart
To curse the race of god
To become the inhuman
Lambs of the feeble ten heavens
Fear the blade of dark
As my greed for death
Screams out for blood

BloodSpawn
The shining face of eternal hate

BloodSpawn
The burning inner flame

BloodSpawn
The merciless journey to hell
BloodSpawn
The vengeance of the ancient reign
BloodSpawn
The shining face of eternal hate
BloodSpawn
The burning inner flame

[For the werewolf legion]
