"So Deep"

So Deep
Written by R Kelly

I never lie
I give you alibyes
If you want me to leave
Or choose not to decive..........Yeah

I recive all this information
From a source of a venue
You know like a tourest
Like a spicalialty to me..........alright
I gotta on my mind boy
Acting like a dry man
Thats cool to make them break the rules
But you have to understand
Cos I'm into you, ah

The way I feel for you
The remedy is you

So deep..........Inside
No matter how you run and try to hide
Everywhere..........You go
I'm going to find you
I'm going to find you

Livin' with a spot can satisfy the heart
Rhythm with a spot is what I call my art
Now, my first impression
Leads you to obsession
Keep your posessions
Don't number me among them
I plead to do the deed
How I got to stay

You sarfice your needs
By the things you say
It doesn't face me or erase me
I'll keep on comming back
Untill you realise my full impact

Something stromg to last for you
What your looking for is here

So deep..........Inside
No matter how you run and try to hide
Everywhere..........You go
I'm going to find you
I'm going to find you

So deep..........Inside
No matter how you run and try to hide
Everywhere..........You go
I'm going to find you
I'm going to find you

No need........to cry........i'm right........
Behind..........and I do........believe........
I'm underneath your skin........Yeah

Don't you feel the way I do?
The remedy is you

So deep..........Inside
No matter how you run and try to hide
Everywhere..........You go
I'm going to find you
I'm going to find you

So deep..........Inside
No matter how you run and try to hide
Everywhere..........You go
I'm going to find you
I'm going to find you

So deep..........Inside
No matter how you run and try to hide
Everywhere..........You go
I'm going to find you
I'm going to find you

So deep..........Inside
No matter how you run and try to hide
Everywhere..........You go
I'm going to find you
I'm going to find youBillie Lyrics Index
