"Inside Me"

Visit "[Inside Me](#)" on MotoLyrics.com

There's something inside me that wants to get out
It needs to get out but I can't do it all
I've been trying the best I can, but now I give up
Can't do it by myself I do need some help

All I've been dreaming and all I've been seeking is now
coming to me
It's just getting started (It's about to get started), it
needs to get started, I'm tired of waiting
It took me so long that I always forget
That I'm walking and walking ahead
All the possibilities were deeply explored
But I can't stop thinking that I'm not there yet
