Creating phony excuses  
They sound like a joke to me  
Sticking your nose  
Far, far away from your home

You never felt so satisfied  
I can't believe you think you're right

Acting like this, I can't believe  
That in some way we are alike

Spending billions on the wrong matter  
Buying weapons  
In a world where people starve to death

You invest in more ways to destroy human race

You have no respect for human life  
Turn on the TV to enjoy it live

If this is a game for you to play  
Leave the rest of us away

Bombing and mass killing  
Can't take it anymore  
Don't want to see any more wars  
No more shotguns versus tomahawks
