There was a piano
We use to play And spend the time
'Til we found it was love
Hidding inside us Can not separate us

There's a flame of love
Searching in the dark It's there to guide us
But through the days beyond the haze
I can see you reaching out to hold me

Chorus :
Still I'm sure we'll love again
It's a matter of time
I will belong to you, You belong to me
How can I convince you girl
That I'm stuck on you Can't find another heart
I love you more each day (I love you more each day...)

Never though never cross my mind
You gave everything You ask me just holding on
If I could just walk away
To love again with somebody new

Too many memories
Release the passion inside And set them free
But through the days beyond the haze
I can see you reaching out to hold me
