(feat. Da Brat)

I 'aint doing nothing wrong, I'm just simply try to be me(
be me)

But I'm the one they hate more, so I guess I got to
make 'em believe(believe)

I can do it better by my damn self, I don't need your
damn help

I can do it better by my damn self, I don't need your
damn help

I got no time for damn games, hold on little mamma
please

My hole scene been screaptym with out no time for
your mamma dizzy got no time for your drama queens,
all that just comedy

My house, my play ground say hello to me company
Got no time for the nearcies, your conversation got no
sense

My banck account still climbing, your banck account
got no sense

I can do it better by my damn self, I'm doing good cut it
better off

You see me in this club in VIP and show me my ...
First name Damny, Bill boy climbing, red clock it's
stucking ...

My money singing like the, 'aint nothing you can
show me, 'aint see me so surprising

I 'aint doing nothing wrong, I'm just simply try to be me(
be me)

But I'm the one they hate more, so I guess I got to
make 'em believe(believe)

I can do it better by my damn self, I don't need your
damn help

I can do it better by my damn self, I don't need your
damn help

How the fuck you thought I was ?

Be on the... future ... laying up....

....

Hey don't stop it, no pretty young dog,, first hug,
And I don't need your resistente, no, I need a reason

for your existence
Special forces, you'll get jumping ..., and I'm the one
with a lot of pations, I grab my gun with no esitation....
I say what the fuck it is even if I'm a .. nigga
That's just the why it is nigga
And if you 'aint pay my bills
And know what the fuck you say
I'm gonna get it high wile I live
I'm gonna kick this bills, I'm gonna kick, kicking making
this ...
....
I 'aint doing nothing wrong, I'm just simply try to be me(
be me)
But I'm the one they hate more, so I guess I got to
make 'em believe(believe, believe, believe)
I can do it better by my damn self, I don't need your
damn help
I can do it better by my damn self, I don't need your
damn help
