Business first, man, fuck the world
Fuck the world, fuck the world
Business first, man, fuck the world
Fuck the world, fuck the world
Business first, man, fuck the world
Fuck the world, fuck the world

See I been on this earth so long, I knew that it would
come to this
Ain't nobody gave a fuck so tell me why should I give a
shit
'Cause these niggas ain't shit half these bitches ain't
real
I'm screaming fuck the world until the grave and that's
just how I feel
On the real, my partner got killed he paid the price
Why them niggas take his life? Ain't nobody living right.
That's why I'm praying every night that I stay up on my
toes
Cause I know the road I choose it ain't safe when I'm in
my shows, shit
And I stay bucking like it's nothing 'till my last breath
My cousin, yeah they say she's on that crystal meth
I blame myself 'cause if I wasn't rapping she would be
with me
And not that nigga that be trapping gone off of that
weed
I really miss my seed I hate that I miscarried ya
Just know that mommy loves ya always thinking of ya
Put no one above you, ain't no other way to put it
Fuck the world, sincerely yours, and that's just how I'm
feeling

Business first, man, fuck the world
Fuck the world, fuck the world
Business first, man, fuck the world
Fuck the world, fuck the world
Business first, man, fuck the world
Fuck the world, fuck the world

Now I'm the main bread winner in my family

That's why I gotta get it til it ain't no single breath in me
Been running things since I was 16
Why the devil keep on testing, stressing me
And I know I better see my Papi make it to eighty
I get tired of going to grady for the bucks for the to say
that it's shaky
And your daddy may not make it I can't take this shit
So tell me what about my brothers? Who's gonna raise
my younger brother?
I need some fucking order. I'm the youngest fuking
daughter.
I need a glass of water I'm about to pass out.
If that nigga keep hurting my sister I'ma fucking smash
out
Just ride out on his stupid fucking coward ass
Ask my manger to bail me out once I whip his niggy ass
Sometimes I wish the plane I'm on crashes and burn to
ashes
Just so I could see a reaction. Who really gives a fuck
about me?
Nobody shawty. That's why I'm screaming fuck the
world until I die
How bout it?

Business first, man, fuck the world
Fuck the world, fuck the world
Business first, man, fuck the world
Fuck the world, fuck the world
Business first, man, fuck the world
Fuck the world, fuck the world
Business first, man, fuck the world
Fuck the world, fuck the world
