Out of control
A desolate soul
Emptiness taking over my life
I was alone
You brought me home
I know our strength is more than enough

Because you give me an inspirational love
You're my inspiration
You give me an inspirational love
You're an inspiration to me

Inspire my mind
Leave fear behind
It's like a warmth I feel from above
Insomniac, braniac the K don't sleep
Give me a mic and a break
Call me the human beatfreak
Mind ticking like a hihat shits deep
Snare thoughts bass drum be my heartbeat
And as I walk with the rhythm
Pulse rate nitro
So a phat jam I gotta give them
Beats I live them
I gotta feed off the crowd when it's loud
You shine we all glisten
I'll be the musical fiend when I'm fiending for wax
It'll be like smokers who be fiending for nicotine
A hundred a day habit, but I gots to have it
The sensation just flows when it goes
From head to my toes
Through the mic at show
Making the ladies say ow and the brothers say ho
Yo I gets a high from riggedy rocking the nation
Cause the music be my inspiration
The life that we is our gift to give
We'll make it through when life gets too much.
