Diamond:

Bugging on that fucking liquor.
Bugging on that fucking liquor.
Bugging on that fucking liquor.
Bugging on that fucking liquor.
Say it snucked up on me hoe.

I drunk that Guinness, smoked that Kush, that shit done
snucked up on me
I drunk some Goosey, smoked some Pursh, that shit
done snucked up on me
Oh, that Patrose has got me loose, that shit done
snucked up one me
That shit done snucked up on me
That shit done snucked up on me
I drunk that Guinness, smoked that Kush, that shit done
snucked up on me
I drunk some Goosey, smoked some Pursh, that shit
done snucked up on me
Oh, that Patrose has got me loose, that shit done
snucked up one me
That shit done snucked up on me
That shit done snucked up on me

Somehow I'm posted in the club, but I can't seem to
know what day it is.
Right now I'm feeling hella buck, but who the fuck I
came with?
I'm looking for my main click, but I can't seem to find
them neither
So I'm gone take a breather, smoke that reefer and get
drunk as shit.

drunk as shit.
So I'ma step on hoes nuts cause we about to get the

knucking.

Ducking, dodging blow for blow but everything is
moving slow

But if a bitch step on my toes, she guaranteed to hit the
floor

Bugging on the fucking liquor say it snucked up on me,
hoe

I drunk that Guinness, smoked that Kush, that shit done
snucked up on me

I drunk some Goosey, smoked some Pursh, that shit
done snucked up on me

Oh, that Patrose has got me loose, that shit done
snucked up one me

That shit done snucked up on me

That shit done snucked up on me

I drunk that Guinness, smoked that Kush, that shit done
snucked up on me

That shit done snucked up on me

G-\$tacks

Got my (?) on and my (?) on

And I'm smoking on that Kush till that whole bags gone

Got my (?) on and my (?) on

And I'm smoking on that Kush till my whole bags gone

Stepping in the club with Patron and that perk

Don't be stepping on my shoes, that might get your boy
hurt

See my eyes low, yeah I'm higher than a motherfucker

Going on the track 'cause I ride like a motherfucker

G-\$tack, bitch, yeah I'm higher than you other suckers

Call me Project Big 'cause I got your girl undercover

Goose got it loose, mixed with Patron

Call it do it, do it hit the Crip now it's on

Dancing in that thong, tune it up drop it low

If you looking for that good, I'm the man you need to
know

Used to move that sticky Joe, now it's strictly the flow

Yeah, I spend a lot of G's 'cause I get a lot of dough.

Hot as hell in the club, like it's gonna make it slow

DPC up in this bitch and you already know, hey

One more shot of Goose, and I'ma fucking fly
It snucked up on me, can't loose my cool
Such a lady but Patron make me act a fool
Is you (?)
Bitch, I might be. I'm geeked up, get like me.

Laid back in the gap so sell a brick.
